Confidential

The above archaeological information is confidential. The site location information is exempt from FOIA and cannot be released. Refer to FSM 2361.4 for laws that provide for protection of sensitive information from public disclosure, including NHPA section 304(a), ARPA Section 9, the Freedom of Information Act (5 USC 552 [b][3], and the Food, Conservation, and Energy Act of 2008.

1. Statutory Protection of the Confidentiality of the Archaeological Resource Information under 16 U.S.C. 470hh: The section provides that "information concerning the nature and location of any archaeological resources" for which the excavation or removal requires an ARPA permit or permission under FOIA or under any other provision of law. Such information may be disclosed if the federal land manager determines that disclosure would further the purposes of the Act and would not create a risk of harm to the resources or the site where they are located.

Unit 30 - Payment Unit 1 - 15.1 Acres

The Forest Service uses the most current and complete data available. GIS data and product accuracy may vary. They may be developed from sources of differing accuracy; accurate only at certain scales; based on modeling or interpretation; incomplete while being created or revised; etc. Using GIS products for purposes other than those for which they were created, may yield inaccurate or misleading results. The Forest Service reserves the right to correct, update, modify, or replace GIS products without notification.
